Bulletin of Environmental Contamination and Toxicology

Volume 37 • 1986

Editor-in-Chief: Herbert N. Nigg
Agricultural Research and Education Center, University of Florida,
700 Experiment Station Road, Lake Alfred, FL 33850

Associate Editors

Analytical Methodology

Yutaka Iwata
Stauffer Chemical Company
1200 South 47th Street
Richmond, CA 94804

Aquatic Toxicology

Dora R. May Passino
Great Lakes Fishery Laboratory
1451 Green Road
Ann Arbor, MI 48105

Environmental Distribution

James Adams
9633 Cottrell Terrace
Silver Spring, MD 20903

Metabolism and Biochemistry

John W. Hylin
Department of Agricultural Biochemistry
University of Hawaii
Honolulu, HI 96822

Physiological and Pathological Studies

John M. King
Cornell University
NYS Veterinary College
Ithaca, NY 14853

Toxicology

James B. Knaak
California Dept. of Health Services, Room 1392
Community Toxicology Unit
714 P Street
Sacramento, CA 95814

Editorial Coordinating Committee: George W. Ware, Editor–*Residue Reviews;* Arthur Bevenue, Editor—*Archives of Environmental Contamination and Toxicology;* and Herbert N. Nigg, Editor—*Bulletin of Environmental Contamination and Toxicology*

Springer-Verlag
New York Berlin Heidelberg Tokyo

SUBJECT INDEX - VOLUME 37

Acetaldehyde, blood and liver concentration after ethanol 513
Acrylamide, effect on energy linked brain functions 427
  toxic effects in freshwater fish 274
Aflatoxin, aflatoxin B_1 in Nigerian beer 482
Air pollution, sampling with octadecylsilane cartridges 664
Aldicarb sulfoxide, HPLC method for watermelon 192
Alga, atrazine effects on stream algae 330
Algicide, glutathione dependent toxicity to Daphnia 629
Alkyl phosphate, triaryl/alkyl phosphates in human
  adipose tissue 41
Aluminum, mortality of salmon smolt 258
Arsenic, in Chilean marine species 599
Aspergillus spp., mutagenicity of austocystins 643
Atrazine, effect on stream algae 330
Austocystins, mutagenicity 643

Benzene, chlorinated benzene and teratogenic,
  carcinogenic, and mutagenic activity 633
  1,3,5-trichloro-2-(4-nitrophenoxy) benzene in
    Ishikari River ecosystem, Japan 344
Biphenyl, molecular connectivity indices and
  teratogenic, carcinogenic, and mutagenic activity 633
Bioassay, bacterial growth test, improved 565
  barbel bioassay for PCB in water 858
  BASIC program for LD_{50} 18
  captive starlings for reproductive effects 655
  fish behavior and pH 808
  long-term toxicity test using zebra fish 606
  medium components and metal cyto- and geno-toxicity 883
  MFO induction by organic river sediment 180
  molecular connectivity indices 326
  rat data for estimating human hazard 159
  synergistic modulation of lymphocyte mitogenesis 187
  teleost pathology due to sewage 266
Birds, captive starlings as assay for reproductive
  effects 655
  chlorfenvinphos and brain cholinesterase activity 774
  selenium and heavy metals in migratory birds 219

Cadmium, accumulation in crayfish 722
  cadmium-Ni interactions toward single-cell organisms 550
  cadmium-Zn developmental effects in Artemia spp. 289
  diet-body relationship 234
  disposition in mussels 579
  effect on neurotransmitter uptake, rat 421
  effect of nitrilotriacetic acid on uptake in yeast 96
  hematological characteristics in trout 375
  in Lake Pontchartrain, USA 151
  in liver and kidneys from Norwegian Cervides 453
  in sheep near smelter 87

migration from tableware 638
tolerance in fiddler crab 362
toxicity of Cd to Daphnia spp. 308
toxicity to Cyprinus spp. and Tilapia spp. 382
toxicity to freshwater crayfish 355
variation in migratory birds 219
Carbamate, molecular connectivity and toxicity 326
Carbaryl, determination in trout liver 415
effect on lymphocyte mitogensis 187
Carbon monoxide, inhalation and fetal weight in rat 877
Castor oil, toxicity to catfish 297
Chlordane, barrier sprays for managing residues 467
effect on lymphocyte mitogenesis 187
residue method in fish 1
Chlorfenvinphos, acetylcholinesterase activity in starling brain 774
Chlorinated benzene, molecular connectivity indices and mutagenicity, carcinogenicity, teratogenicity 633
1-chloro-2,4-dinitrobenzene, glutathione dependent toxicity to Daphnia 629
4-chloro-3-methylphenol, mutagenicity by salmonella/activation 651
Chlorophenol, acute toxicity to Daphnia magna 599
toxicity to freshwater bacteria 714
Chlorpyrifos, dislodgeable residues on lawn foliage 33
dislodgeable residues on turf 27
residue in cattle from ear tag 692
Chlorsulfuron, persistence in soil 698
Cigarette, smoke inhalation and fetal weight in rat 877
Cineole, metabolism of 1,8 cineole in rat 759
Copper, content in South African fruits and vegetables 81
diet-body relationship 234
enhancement of pigment in Dunaliella spp. 710
in fur of animals 213
in Lake Pontchartrain, USA 151
in sheep near smelter 87
migration from tableware 638
Cypermethrin, residue in cattle from ear tag 692

DBCP, reproductive effects 531
DDT, effect on calcium transport and thymidine uptake 523
effect on lymphocyte mitogenesis 187
photochemical conversion of α-chloro DDT to DDE 791
subchronic effect on humoral immune response 433
Detergent, effect of synthetic detergent on fern spores 837
Diazinon, dose response of peripheral blood lymphocytes 517
histopathology of liver 501
Dichlorobenzene, teratologic evaluation in the rat 164
Dichlorvos, air sampling 664
dislodgeable residues on lawn foliage 33
dislodgeable residues on turf 27
Dicofol, photochemical conversion of α-chloro DDT to DDE 791
Dieldrin, effect on lymphocyte mitogenesis 187

N,N-dimethylformamide, toxicity to fish and invertebrates 615
Dithiocarbamate fungicide, determination in air 931

Ethanol, blood and liver acetaldehyde after ethanol consumption and solvent exposure 513, 874

Fenitrothion, air sampling 664
Fenthion, toxicity to freshwater mollusc 622
Fluoride, effect on lipid peroxidation 70
Fungicide, ziram inhibition of rat liver enzymes 53

Halomethane, disposition in mice and rats 752
Heavy metal, adrenal changes in Pb-treated rats 62
aluminum toxicity to salmon smolt 258
bioaccumulation in fish, Nuevo León, México 395
cadmium accumulation in crayfish 722
cadmium and Zn developmental effects in Artemia spp. 289
cadmium effect on neurotransmitter uptake 421
cadmium exposure and hematological characteristics in trout 375
cadmium in liver and kidneys, Norway 453
cadmium nickel interaction with bacteria, fungi, cultured cells 550
cadmium tolerance in fiddler crab 362
cadmium toxicity to Cyprinus spp. and Tilapia spp. 382
cadmium toxicity to freshwater crayfish 355
cadmium, Zn, Cu consumer-producer relationships 234
chelation in lead intoxication 317
copper content of South African fruits and vegetables 81
copper enhancement of pigment in Dunaliella spp. 710
copper, Fe, Hg, Mn, Zn in animal fur 213
copper migration from tableware 638
disposition of Cd and Zn in mussles 579
in biota and sediments, Lake Pontchartrain, USA 151
in British otters 844
in fish, Mutek Lake, Poland 587
in fur of animals 213
lead-calcium interactions in earthworms 226
lead, Cd, Cu plant-insect relationships 239
medium components and metal cyto- and geno-toxicity 883
mercury accumulation in Chironomus spp. 402
mercury contamination in river marshes 253
mercury in birds 219
mercury in human hair and tuna fish consumption 475
methyl mercury complexes with thiols 890
methyl mercury sex differential in toxicity in rat 916
methyl mercury toxicity to freshwater fish 281
motor nerve conduction velocity in Pb-treated rats 47
selenium status and methyl mercury binding to myelin 783
toxicity of Cd and sodium pentachlorophenate to Daphnia 308
trace elements in human hair 925
trace elements in sheep 87

vanadium effect on calcium absorption in rat 899
zinc toxicity and accumulation in crayfish 387
Herbicide, persistence of chlorsulfuron and metsulfuron methyl in soil 698
Hippeastidine, clastogenic effect 508
Human, determination of picloram in urine 938
hazard to applicators of nemacur 159
trace elements in human hair 925
triaryl/alkyl phosphates in adipose tissue, Ontario 41
tuna fish and mercury in hair 475
Hydrazine, toxicity to salamander larvae 739
Hydrothol 191, toxicity to phytoplankton and trout 350
Hydroxycinnamic acid, chlorination in water and toxic risk 866

Indole, distribution in cattle, swine, and pullets 246
Iron, bioaccumulation in fish 395
in fur of animals 213

Kepone, liver changes in rat 169

LD_{50}, BASIC program for IBM-PC 18
Lead, adrenal changes in rat 62
calcium-lead interactions in earthworms 226
chelation in lead intoxication 317
in Lake Pontchartrain, USA 151
in sciatic nerve, rats 47
in sheep near smelter 87
migration from tableware 638
motor nerve conduction velocity in rat 47
trace elements in sheep 87
variation in migratory birds 219

Malathion, effect on crab carbohydrate metabolism 816
Manganese, in fur of animals 213
toxicity of Mn and Mo to mussel 303
Mercury, accumulation in Chironomus spp. 402
complexes of methyl mercury with thiols 890
contamination in river marshes, Spain 253
in fur of animals 213
mercury, heavy metals, and selenium variation, birds 219
methyl mercury toxicity to larval lamprey 281
myelin binding and selenium status 783
sex differences in toxicity in rat 916
tuna fish and human hair 475
Methanol, toxicity to fish and invertebrates 615
Methyl mercury, myelin binding and selenium status 783
Methyl parathion, effect on acid phosphatase in crab 106
effect on betacyanin efflux 448
persistence in carp pond 705
Metsulfuron methyl, persistence in soil 698
Molecular connectivity indices, teratogenicity, carcinogenicity, and mutagenicity 326, 633
Molybdenum, toxicity of Mo and Mn to mussel 303

Mutagen, austocystins 643
4-chloro-3-methylphenol 651
molecular connectivity indices, benzene, biphenyl 633
molecular connectivity indices of carbamates 326

Nemacur, estimating hazard to human applicators 159
Nickel, in Lake Pontchartrain, USA 151
Nitrilotriacetic acid, effect on Cd uptake by yeast 96
Nitrite, resistance of channel catfish to hypoxia 802
Nitrophenol, toxicity to freshwater bacteria 714
N-nitroso curzate, formation in water 672

Octachlorostyrene, disposition in spiney lobster 747
Oil, benzene fraction effects on rat liver and kidney 55
bioaccumulation in Daphnia spp. 125
growth of pullet chicks fed contaminated diets 441
toxicity of castor oil to catfish 297
Organochlorine, absorption, distribution, excretion of trihalomethanes 752
barrier sprays for managing chlordane residues 467
content in overwintering birds, Italy 538
effect of oil matrix on PCB quantification 10
in fish, Mutek Lake, Poland 587
MFO effects on overwintering birds, Italy 538
PCB levels on surfaces and in air 461
pesticide content of land crab 120
synergistic modulation of lymphocyte mitogenesis 187
translocation of chlorinated pesticides in plants 850

PAH, contamination of American lobster 730
determination in mussels 570
in mussel and fish, Finland 337
in sediments, Saguenay Fjord, Canada 133
structure-biodegradability in soil 490
PCB, effect of oil matrix on quantification 10
enzyme induction in the rat 180
in marine organisms, Canada 823
limitations with nickel-boride dechlorination analysis 199
residue method in fish 1
surface and air levels in public buildings 461
water purification with chitosan 858
Paraquat, removal from fabrics 558
Pentachlorophenate, toxicity to daphnids and fish 308
Phenanthrene, disposition in spiney lobster 747
Phenol, acute toxicity of chlorophenols to Daphnia spp. 599
4-chloro-3-methylphenol mutagenicity and acute toxicity 651
toxicity to freshwater bacteria 714
Phenoxyalkanoic acid, toxicity to freshwater bacteria 714
Phosphamidon, chronic treatment and liver morphology 767
salinity and toxicity to crustacean 797
Phthalate, toxicity of contaminated sediment to benthic organisms 141
Picloram, determination in human urine 938

stability in forest soil 496
Piperonyl butoxide, residue in cattle from ear tag 692

Selenium, effect of environmental factors on toxicity 369
survival of hermit crab 369
variation in migratory birds with heavy metals 219
Silver, in Lake Pontchartrain, USA 151
Sodium arsenite, synergistic modulation of lymphocyte mitogenesis 187
Sodium selenite, effect on peripheral leukocyte levels 175
Styrene, styrene monomer in Chilean foods 207

Teratogen, molecular connectivity indices, benzene, biphenyl 638
molecular connectivity indices of carbamates 326
Tin, migration from tableware 638
Toxaphene, residue method in fish 1
toxicity to Bosmina spp. and Daphnia spp. 719
Trichloroethylene, toxicity to marine organisms 830
1,3,5-trichloro-2-(4-nitrophenoxy) benzene, in water, shellfish, sediments, Japan 344
2,4-D, effect on lymphocyte mitogenesis 187

Uranium, uranyl nitrate toxicity to chicks 907
Uranyl nitrate, toxicity to chicks 907

Vanadium, effect on calcium absorption in rat 899
Volatile, alcohol consumption and exposure to volatiles 874
determination of dithiocarbamates in air 931
disposition of trihalomethanes in mice and rats 752
halocarbons in water 677
reproduction and 1,2-dibromo-3-chloropropane 531
teratologic evaluation of dichlorobenzene 164

Warfarin, acute toxicity to poultry 544
Water, accuracy and precision of multiclass analysis 686
acidic and alkaline effects on glycogen metabolism of red muscle, Tilapia spp. 113
acrylamide toxicity to freshwater fish 274
anion contents from containers 668
atrazine effect on stream algae 330
bacterial growth toxicity test 565
bioaccumulation of fossil fuel in Daphnia spp. 125
charcoal filters 668
formation of N-nitroso curzate 672
heavy metal accumulation in fish, Mexico 395
4-hydroxycinnamic acid chlorination and risk 866
long-term fish toxicity test 606
metals in biota and sediment, Lake Pontchartrain, USA 151
methyl parathion effect on crab acid phosphatase activity 106
nitrite and hypoxia in channel catfish 802
PAH contamination of American lobster 730

PAH in mussel and fish, Finland 337
PCB in marine organisms, Canada 823
PCB removal with chitosan 858
persistence of methyl parathion in carp pond 705
pH and fish avoidance behavior 808
physical-chemical treatments of wine wastes 407
reproductive effects of DBCP 531
salinity and toxicity of phosphamidon to crustacean 797
survival of hermit crab and environmental factors 369
teleost pathology due to sewage 266
toxicity of fenthion to freshwater mollusc 622
toxicity of hydrothol to phytoplankton and trout 350
toxicity of methanol and N,N-dimethylformamide to freshwater organisms 615
toxicity of phthalate sediment to benthic organisms 141
toxicity of trichloroethylene to marine organisms 830
1,3,5-trichloro-2-(4-nitrophenoxy) benzene in Ishikari River ecosystem, Japan 344
volatile halocarbons 677
Wine, treatment of distillery wastes 407

Xylitol, effect on Pb absorption in mouse and cockerel 77

Zinc, diet-body relationship 234
disposition in mussels 579
in fur of animals 213
in Lake Pontchartrain, USA 151
in sheep near smelter 87
toxicity and accumulation in crayfish 387
Ziram, inhibition of liver enzymes 53
